You've spent a decade in school, racked up student loan debt, and are just starting your attending position — but you're ready to buy a home. The Doctor's Loan was built exactly for this situation.

What Is a Doctor's Loan?

A Doctor's Loan (also called a physician mortgage or medical professional home loan) is a specialized mortgage program designed for licensed medical professionals — particularly those who are early in their careers. Doctors have exceptional long-term earning potential and historically very low default rates, even when their current financial snapshot doesn't fit conventional underwriting boxes.

Doctor's Loans allow qualified borrowers to purchase a primary residence with 0–5% down, no private mortgage insurance (PMI), and flexible treatment of student loan debt — even before the first paycheck from a new job.

Who Qualifies?

Most programs require at least one borrower to hold one of the following active professional designations:

Medical Doctor (MD)
Doctor of Osteopathy (DO)
Doctor of Dental Science or Surgery (DDS)
Doctor of Dental Medicine (DMD)
Doctor of Ophthalmology (MD or DO)
Doctor of Psychiatry (MD or DO)
Doctor of Pharmacy (PharmD)
Doctor of Veterinary Medicine (DVM or VMD)
Doctor of Podiatric Medicine (DPM)
Certified Registered Nurse Anesthetist (CRNA with DNAP or DNP)
Medical Residents, Fellows, or Interns with the above degrees

Note: Chiropractors are generally not eligible for Doctor's Loan programs.

Application Process: Step by Step

- 1 Get Pre-Qualified**
 Talk with a loan officer who specializes in Doctor's Loans. Share your current status, start date if new job, estimated purchase price, and state. You'll get a pre-qualification letter.
- 2 Submit Your Application**
 Complete the Uniform Residential Loan Application (Form 1003). Your lender will pull a tri-merge credit report. Minimum score: 680.
- 3 Provide Documentation**
 The heart of the process — see the document checklist below.
- 4 Property Appraisal**
 Lender orders an independent appraisal to confirm the property's market value. Valid for 120–180 days.
- 5 Manual Underwriting Review**
 Doctor's Loans require full manual underwriting — no AUS. The underwriter reviews student loan status, employment contract, assets, and credit history.
- 6 Conditional Approval & Clear to Close**
 The underwriter issues conditions to address. Once all cleared, you receive your Clear to Close (CTC).
- 7 Closing**
 Sign documents with a title company or escrow agent. You'll pay closing costs (typically 2–4% of the loan amount) and any required reserves. You receive the keys.

Frequently Asked Questions

Q: Can I use a Doctor's Loan before I start my job?

Yes. Some lenders accept an executed employment contract as qualifying income if your start date is within 90–150 days of the note date. The contract must be fully signed and include a stated salary for at least 12 months.

Q: Do I need to pay PMI?

No. PMI is NOT required, even when borrowing 100% of the purchase price. This can save \$200–\$800/month on a \$1M loan.

Q: How are my student loans counted?

For residents and fellows with loans in IBR or deferment, student loan payments can be excluded from the DTI calculation entirely.

Q: Can I get a Doctor's Loan for a rental or second home?

No. Doctor's Loan programs are strictly limited to primary residences — 1-unit properties only.

Q: What credit score do I need?

The minimum is 680 for most programs. The qualifying score is the lowest representative score across all borrowers on the loan.
